

Certificate of Originality

Pen number #942 is a handcrafted original. The wood is maple which was hand-turned in my Dallas, Ga turnery. The "We the People" graphic was hand-applied and sealed in liquid acrylic. Then hand finished with additional layers of liquid acrylic to protect the wood and graphic from wear and finally fitted to the chrome plated components.

The pen uses a Parker ® style ballpoint refill available at most office supply stores. Pull apart the upper and lower portions of the pen and unscrew the transmission to access and replace the refill.

Hand-crafted pens by Gary Hughes

Pens are available at Treasure Hunt Antique Mall, Powder Springs, GA
