

Certificate of Originality

Pen number #739 is certified to be a one-of-a-kind, handcrafted original. The pen is made from a reclaimed oak stair tread from the McEachern High School Alumni House. The wood was hand-turned, hand finished with liquid acrylic to provide protection for the wood and fitted to the chrome components.

Production of this pen was commissioned by Mr. John Jones as a gift for his daughter, Sarah.

The standard Parker © style ball point refill was upgraded to a Private Reserve Easy Flow 9000 ink cartridge. Refills are available at most office supply stores. To access the ink cartridge, unscrew the tip, remove the spring and replace the ink.
